

American Walnut Silky Grey Ultramatt Hardwax

The manual application of our custom lye and a hardwax results in a Walnut with a highly refined dark grey-purple patina. The natural variation in colour mellows out over time with the use of soap, and works best in modern settings with randomly mixed wider widths and longer lengths boards.

Species	American Walnut
Finish*	Ultramatt Hardwax-Oil
Origin	American dark Walnut (<i>Juglans Nigra</i>) mainly over 80 years old. Grown in responsibly managed forests in the northern states of the USA.
Maintenance	This finish can be cleaned regularly using our Whitewash Oil Soap, which feeds and strengthens the surface over time and allows to adjust the patina how you want it to be.
Spot repair and Refinish	Professional maintenance with our Whitewash Maintenance Oil will make this finish more faded and protected over time. Spot repairs are possible with our touch up kit.

Structure**

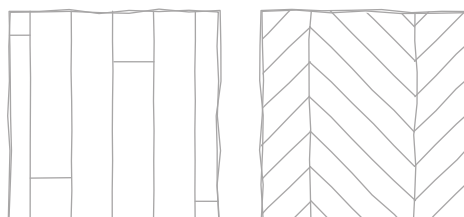

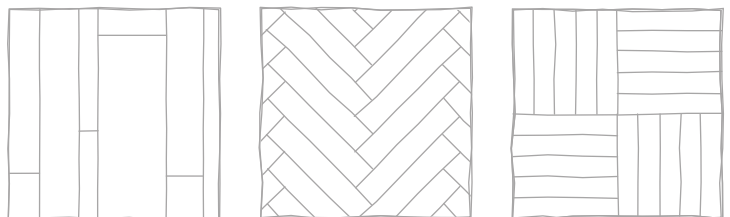

Engineered: 19.5 +/- 0.5 mm, top layer 4.5 +/- 0.5 mm

Solid: 19.5 +/- 0.5 mm

Recommended patterns

*) Whilst our sampling and photography endeavours to show grain and colour as natural as possible, a sample or photo are never an exact representation of an entire floor. Wood being a natural material, variation in colour and grain exists, floors may change appearance over time through exposure to light, wear and tear and maintenance.

**) Prefinishing of solid floors may be subject to more strict recommendations for limited board dimensions and climate control. Read further on the next page.
