

Continental Oak Champagne Hardwax Coated

By carefully brushing, and applying multiple layers of hardwax, we achieve an opaque and highly refined surface with a soft metallic sheen. This treatment hides all natural variation, resulting in a consistent, uniform tone. The structured yet polished finish reflects light subtly, making it a sophisticated choice for contemporary interiors.

Species	Continental (European) Oak
Finish*	Hardwax-Oil
Origin	European Oak (Quercus Robur) mainly over 80 years old. Grown in responsibly managed central European forests.
Maintenance	This finish can be cleaned regularly using our Natural Oil Soap, which feeds and strengthens the surface over time and makes the patina richer and deeper.
Spot repair and Refinish	Professional maintenance with our Maintenance natural Oil will make this finish richer and protect it over time. Spot repairs are possible with our touch-up kit.

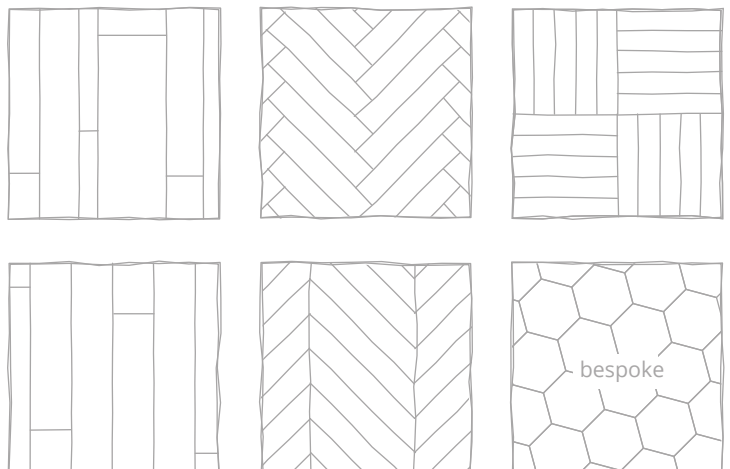

Structure**

Engineered: 19.5 +/- 0.5 mm, top layer 4.5 +/- 0.5 mm

Recommended patterns

*) Whilst our sampling and photography endeavours to show grain and colour as natural as possible, a sample or photo are never an exact representation of an entire floor. Wood being a natural material, variation in colour and grain exists, floors may change appearance over time through exposure to light, wear and tear and maintenance.

**) Prefinishing of solid floors may be subject to more strict recommendations for limited board dimensions and climate control. Read further on the next page.
